

### ▶ FLEXIBLE REPORTING OPTIONS

**Comprehensive reporting is a vital component of effectively managing fleet operations.**

With FuelTrac's industry-leading tools, clients can turn raw transaction data into useful information for compliance management and strategic planning. Using FuelTrac's reporting options, clients can run standard or create ad-hoc reports each month.

FuelTrac generate various management reports regarding card usage, price per gallon, fuel type, number of gallons, sales amount, odometer readings, date and time of sale, retailer and retail location.

Clients can customize daily and monthly spending limits on a card-by-card basis. This exclusive functionality provides great value and strategic risk management controls to fleet administrators who would prefer not to establish blanket transaction levels to their entire accounts.

### ▶ EXCEPTION MONITORING

Exceptions are identified on Vehicle, Driver and Exception reports. A sample of exceptions include:

- Mile per gallon variances (based on customer defined specifications)
- Pattern discrepancies (time, date — based on customer defined specifications)
- Product variances (based on customer defined specifications)
- Fuel Purchases in excess of customer defined capacity

### ▶ REPORTING OPTIONS
