

GPS Business Vehicle Solution

GPS Business Vehicle Solution

“Top Rated Commercial Vehicle Solution 2 Years Running”

Our award winning GPS technology keeps you in the know. Track your fleet vehicles with detailed location information and monitor your vehicle's performance with the Remote Diagnostic feature. With 2-minute updates and web-based technology, you will be tracking your fleet vehicles all without downloading software.

- Track your vehicles and know when your drivers arrive on the job.
- Eliminate wasted fuel costs by monitoring your vehicles with our Idle Time Report.
- Monitor time between delivery stops with the Stop Detail Report.
- Remote diagnostics identifies a problem and sends you an alert, keeping down time to a minimum.
- Service Reminders keep you in front of the preventive maintenance marathon, and helps you avoid costly breakdowns.
- Feel secure with Roadside Assistance and National Lost and Stolen recovery program.
- NHSTA Recall Alerts – once your vehicle is registered with Network Fleet, you will be alerted to any recalls for your vehicles.
- 2-minute updates with detailed location information
- Remote Diagnostics and service reminders
- Insurance deduction*
- Plug and play technology
- No software to download

Begin/End of Day Report

With Networkfleet's™ Begin/End of Day Report, you can view each vehicle's start and stop time as well as the hours that a vehicle was in operation, allowing you to estimate hours worked. Simply select the vehicle or group of vehicles, and the date range, and the report will return the first and last time the vehicle operated and approximate hours worked.
