

## ▶ Reporting

### ▶ FLEXIBLE REPORTING OPTIONS

**Comprehensive reporting is a vital component of effectively managing fleet operations.**

With PAPCO's industry-leading tools, clients can turn raw transaction data into useful information for compliance management and strategic planning. Using Voyager's reporting options, clients can run standard or create ad-hoc reports each month.

PAPCO generate various management reports regarding card usage, price-per-gallon, fuel type, number of gallons, sales amount, odometer readings, date and time of sale, retailer and retail location.

Clients can also customize daily and monthly spending limits on a card-by-card basis. This exclusive functionality provides great value and strategic risk management controls to fleet administrators who would prefer not to establish blanket transaction levels to their entire accounts.

### ▶ EXCEPTION MONITORING

Exceptions are identified on Vehicle, Driver and Exception Reports. A sample of exceptions include:

- Mile-per-gallon variances (based on customer defined specifications)
- Pattern discrepancies (time, date — based on customer-defined specifications)
- Product variances (based on customer-defined specifications)
- Fuel purchases in excess of customer defined capacity

### ▶ REPORTING OPTIONS

- Detailed Invoice Report
- Unusual Activity/Limits Report
- Fuel Management Report
- Vehicle & Driver Report
- IFTA Tax Report
- Site Report with Price per Gallon
- Tax Details and Exemptions Report
